

LeanSuite™ PDSTORE™ SOFTWARE

LeanSuite provides today's manufacturing companies the productivity toolbox they need to be successful tomorrow. LeanSuite is a set of lean manufacturing tools designed to provide your workforce the freedom that they need to own and maximize your productivity.

Automatically Save Critical Files and Applications

LeanSuite™ PDStore™ software is one of the best means of insurance users can adopt for their manufacturing process. Critical to the success of your manufacturing are all the applications stored in your PLCs and industrial PCs on your plant floor. PDStore compares and archives these mission critical items, allowing users to recover from catastrophe quickly and effectively. In addition, this software provides tools to manage revision changes.

- Configure Multi-Vendors via Drag and Drop
- Define Multiple Archive Groups
- Schedule Each Group Independently
- Monitor Back-up Status Online
- Keep Symbol Files Synchronized with Application Files
- Schedule on Time of Day or After Previous Events
- Access Automatically Prepared Reports

For additional information on the LeanSuite line, visit www.LeanSuite.com, email leansuite@schneider-electric.com or call 440-746-3154.
