

## Maintenance and Testing

### Emergency Response and Disaster Recovery

Available 24 hours a day, 7 days a week

#### Why choose SQUARE D Services?

Single point of contact

24-hour access to Square D manufacturing plants

Services available for a broad range of electrical equipment, including other manufacturers

Replacement parts are provided

National network of service locations and factory-trained service representatives

#### Industry Leading Expertise. Customized Solutions.

Contact your Square D sales representative, call Square D at 1-888-778-2733 or visit [www.SquareD.com](http://www.SquareD.com).

Emergency Services Available  
24 Hours/Day-7 Days/Week

If your electrical system has been damaged by a disaster, just call 1-888-778-2733. We'll do the rest. SQUARE D Services factory-trained and field experienced technicians are equipped and ready to respond to your call whenever you need assistance. Our professionals will bring you in-depth knowledge of your system and equipment, as well as the ability to solve any operating problem in any environment. Our services include:

#### ■ Problem Analysis

Upon receiving the call, the service coordinator will gather information and promptly relay to the field service technician, who will immediately contact the customer and coordinate an action plan.

#### ■ Project Management

The Services team will order and install parts and equipment, establish schedules, coordinate third-party participation, and act as the interface to the utility.

#### Natural Disasters

Mother Nature is still the most powerful force on earth. While restoring power is a priority, doing it safely is a necessity. Water and electricity do not mix. If your electrical equipment has been submerged, it must be replaced or reconditioned as shown:

Must be Replaced	May be Reconditioned (*)
<ul style="list-style-type: none"><li>- Miniature and molded case circuit breakers</li><li>- Multi-metering equipment</li><li>- Safety switches</li><li>- Load centers</li><li>- Electrical panel interiors</li><li>- Dry-type transformers</li><li>- Busway</li><li>- All solid-state components</li><li>- All electromechanical relays, contactors, starters, etc.</li><li>- Solid state motor starters</li><li>- Adjustable speed drives</li><li>- Programmable logic controllers</li></ul>	<ul style="list-style-type: none"><li>- Switchboards</li><li>- Switchgear</li><li>- Iron frame low voltage circuit breakers</li><li>- Medium voltage circuit breakers</li><li>- Low voltage bolted pressure switches</li><li>- Medium voltage switches</li><li>- Motor control centers</li><li>- Panelboards</li><li>- Liquid-filled transformers</li><li>- Cast-resin transformers</li></ul>

\* The ability to recondition will vary; may include repair/replacement of internal components.

SQUARE D Services recognizes the need to restore electricity as soon as possible to minimize the impact of a disaster. Call us.
